Orland Hills Residents Get Home Mail Delivery

Improved mail service is now effective in Orland Park, it was announced from the office of Cong. Edward J. Derwinski (R. - 4th Dist.) and home delivery is now in force in Orland Hills, the housing development lying west of West ave. and south of the Wabash tracks.

This area, Derwinski said, is now being served by a foot carrier because it meets all the requirements to have such service.

The older portion of Orland Park, east of West ave. and south of the tracks, will be served by a city mounted carrier to boxes located at the curb in front of the homes. Before foot service can be provided in this section, 50% of the building lots must be improved with houses or business places. Streets paved or improved to permit traffic of postal vehicles at all times. Contin-

ous sidewalks installed where traffic hazards or extreme weather conditions preclude the use of the streets by carrier. . . and satisfactory walks must be between the sidewalk or street and the front entrance of the dwelling.

Patrons in the old portion of Orland Park west of West Ave. and north of the Wabash tracks will receive improved service by rural carrier. Delivery will be made to boxes at the curb in front of their homes. Most of these patrons either called for their mail at the post office, or have boxes on 143rd Street, the rural carrier's line of travel.

Derwinski stated that all residents of Orland Park will be receiving improved mail service. . . and as growth occurs in the old and the new sections, delivery service, the type for which the area qualifies, will be extended.

Sewer Connections A 'Must' Mokena Trustees Declare

An ordinance making use of the Mokena sewer system compulsory for householders in that community was enacted by the village board at its regular session last week.

Thus when weather conditions permit the village will be in position to force reluctant property owners to connect their holdings to the new sanitary water system.

Most of the people who have not yet connected their homes with the sewer system are willing enough to do so, officials said. In some instances the persons hired to do the work have been engaged in other endeavors, it was explained. Still others hesitated to dig up their yards in the summer and early fall and since then the weather has caused further delays, it was said.

When the ordinance is made effective persons will be served with notice to conform within a certain

specified time. Those who fail to obey, it was said, will face a penalty of at least \$10 a day for each day the ordinance is flouted.

The village is also cracking down on water users who either have defective meters or are without any meter. One family, it was brought out, is listed as having procured a meter but contended that it was defective so have it lying in their garage. There are perhaps a dozen water users, it was said, who have defective meters. They will be served with notices giving them 10 days in which to have repairs made. Those who fail to heed the notices will find themselves without water, officials warn.

Persons delinquent in their water bills also face a shut-off of their supply if they fail to either pay up or make arrangements to pay, it was announced.

Mail Yule Gifts, Cards Early, Say Postmasters

Postmasters in the area, Mrs. Margaret O'Brien, of Mokena; Mr. Lester E. Brown, of New Lenox; James Davidson, of Orland Park and Leroy Mager, of Frankfort, are urging the public to mail Christmas cards and packages early enough to be certain they will arrive at their destinations in plenty of time.

It was pointed out that postal workers are people who like to enjoy Christmas too and if they can

get the public to mail early enough the clerks and carriers can get the job done without that last minute, frenzied rush that leaves them exhausted.

"It is not too soon," the postmasters said, "for people to start checking their Christmas gift and card lists, making sure each address includes full name street and number, city, zone and state."

"Early Christmas shoppers should stock up now," they went

on, "with heavy wrapping paper, sturdy corrugated cartons, strong cord and paper adhesive tape to insure secure packing and wrapping of gifts."

"Buy stamps for your Christmas cards now, before the rush, and thus avoid those last minute Christmas mailing headaches," they further advise.

The postmasters are beaming their appeal to "the lady of the house," for cooperation in their

"Mail Early for Christmas" campaign, as she is the one who usually selects and addresses the cards, buys most of the gifts and sees to it that the Yule mailing lists are up-to-date.

Pamphlet 2, which gives detailed information on gift mailing, is available at the postoffices; also free labels for packages of cards which denote they are all for local delivery, or all for out of town. The recommend use of first

class postage on Christmas cards. This permits one to include written messages and also insures forwarding or return service. Senders of cards and packages should make certain they carry the return address of the sender.

Out of town packages and cards should be mailed before Dec. 10, the postmaster said. Those for nearby points will arrive by Christmas Eve, they said, if mailed by Dec. 15.

Eight Seniors At Sandburg Commended

Eight seniors at Carl Sandburg high school have been cited for outstanding performances on the National Merit Scholarship qualifying test administered last spring.

Those persons so honored are Patrick Barrett, Arthur Denne, Margaret Cummings, Judith Bendix, Arthur Kartman, Sheila Sundquist, Phyllis Carey and Linda Pearson.

"Letters of Commendation" are awarded to less than two per cent of the 550,000 senior students that took the tests. While these bright students did not achieve the status of semifinalists in the 1959-60 Merit program, they are so outstanding that John M. Stalnaker, president of the NMSQT, stated that "we wish to single them out for special attention."

These students have certainly displayed a highly promising potential and will undoubtedly go on to college and further develop their academic skills.

The test taken by these students was a three-hour examination covering five separate areas of educational development. Semifinalists and commended students receive many scholarships apart from the Merit Program. NMSC estimates that more than nine million dollars in scholarships for the freshman year alone will be awarded these students.

The village board took no action on the proposed subdivision ordinance at the meeting last week because the trustees would like to make some changes first. They would modify the section dealing with storm sewers, setting up the conditions under which they would be mandatory.

The meeting was curtailed some what last week because of lack of heat in the village hall. Trustees and spectators kept on overcoats, hat and gloves.

Orland Park Village Board Adopts Sewer Bond Ordinance

An ordinance authorizing issuance of \$455,000 of revenue bonds to help finance the sanitary sewer system proposed for Orland Park was adopted by the village board there Monday night.

The ordinance, which covers 23 typewritten pages, will be published in next week's issue of this paper.

Later another ordinance, authorizing an issue of \$100,000 in general obligation bonds, will be adopted by the board as it is estimated a total of \$555,000 should be available for the project in order to cover all contingencies that could arise.

When the other measure is enacted a date will be set for an election at which the question of authorizing the bonds will be placed before the voters.

Under law general obligation bonds, which are retired thru taxes, must be authorized at an election. Revenue bonds can be issued without a referendum, unless one is requested by a certain number of voters. However, the village board can order a vote on revenue bonds and in this case it will be done.

"We want the public to have a voice in this, for after all it is the public's money that will pay for the improvement," said Mayor W. R. Schussler, speaking for the board, "and it is only right that the voters should have an opportunity to express their views."

The revenue bonds will be retired thru payments from the water and sewer service rates.

The revenue bonds will be retired through payments from the water and sewer rates.

Practically the entire council meeting Monday night was taken up with a discussion of sewer program and the bond ordinance. The trustees have made a careful study of the program and believe it will take care of future as well as current needs.

In addition to the sewers the program also includes improvement to the water system. Orland Park has grown so rapidly in the past three years that a larger

water supply is needed. Last summer there were days when the pressure was inadequate in certain sections of the community.

It is estimated now that the population of the village is approximately 2,500 and it will continue to grow, according to those familiar with the area plans. More homes are in prospect and annexation will continue to add to the size of Orland Park.

With this rapid growth, it was pointed out, the community can no longer be served by septic tanks and a modern sewer system is required.

Mokena has completed a sewer system; Frankfort is getting ready to start actual work on one; New Lenox is preparing to install sewer and water, and Tinley Park is discussing ways and means to build a sanitary sewer.

Burglars broke into the Frankfort Hardware store early Wednesday morning and looted the safe of an undetermined amount of cash, according to a report of the affair made to Frankfort's police chief, Frank Simon, yesterday forenoon.

The steel covering on the safe door was peeled back and the thieves then proceeded to break thru the door.

Edward Lauffer, owner of the store, said a .22 pistol which had been in the safe, was also stolen. He was not certain what else was taken nor the amount of money involved. Apparently no merchandise was taken from the store.

300-Year Old Font Used In Christening

A 300-year old baptismal font of St. Paul's Episcopal church, Manhattan, was used when the infant daughter of Maj. and Mrs. Royce Larned of Elwood, was christened Penelope Ann, at morning services in the church Sunday, November 22. The rector, Rev. Humphrey C. Dixon, performed the baptismal ceremony.

The historic font was presented to the congregation of Christ church, New Haven, Conn., by Queen Anne of England and in turn passed on by them to the newly built church in Manhattan. That was long before the township of Manhattan or the Village of Manhattan were named or platted.

The Larned baby is the sister of Chester Larned and Jennifer Larned and her christening was the first in the second hundred years of St. Paul's church.

Open New Store At Frankfort

A new addition to this area is the Skelgas store at 108 Kansas street, Frankfort. Although the store is new Skelgas is a familiar name to the residents of the South Cook Will county area for they have been in business here for over 20 years. Formerly in Chicago Heights the store was moved to Frankfort recently to be more centrally located in their trade area and to be nearer their storage plant (see picture), which has been in operation for over a year. The storage plant is on the outskirts of Frankfort.

The late W.G. Skelly, a pioneer in the oil industry, founded Skelgas over 30 years ago and now one of the oldest of all bottle gas companies.

The new store will carry a complete line of both city gas and bottle gas appliances and heaters.

If anyone has not as yet met Police Chief Marts, this will be an opportunity to do so. Chief Marts expects to have a volunteer force of perhaps ten men within a month. Applications are now being processed.

Plans for establishment of a Little League in Country Club Hills were discussed last Thursday night at a meeting in Sanger hall, Tinley Park. Elected as officers were, Gus Palumbo, president; Emil Van Tichelt, vice president; William Compton, treas.; Sheral Sullivan, sec. and Stanley Sokolowski, director.

The Junior Chamber of Commerce originally planned the Little League but decided this should be a community affair so a general meeting was called.

Bert Peterson has been chosen co-ordinator between the city, the Jaycees and the Little League. It was reported that enough uniforms have been promised to outfit 60 boys.

Backers of the program have a lot of work to do before the season opens, it was pointed out. A diamond must be built and then there is the matter of getting coaches, umpires, and sponsors, not to mention players.

Persons who will volunteer to help may call Mr. Van Tichelt at Sycamore 8-5390.

The group has applied for a franchise from Little League Baseball, Inc. When it arrives the Country Club Hills League will be formally organized.

Age limit for players is eight to 12. Later the group may organize a league to accommodate youngsters under eight and also serve the Little League as a farm.

PTA FATHERS MEET
Sixty-five male members of the Country Club Hills PTA met Thursday evening for a special "Fathers Night" meeting at the Willowview school. The men enjoyed an entertaining and informative film entitled "The Eighth Sea," an account of the St. Lawrence Seaway. After the film, Mayor James Nally discussed the impact which the Seaway will make on the suburban areas of Chicago in general; our town in particular. Mayor Nally also told of plans for improving and enlarging the police facilities in the community, and recreation facilities which will be needed in connection with our growing educational system. Emil Van Tichelt spoke, telling of the requirements for receiving a Little League franchise in the town.

The President of the Country Club Hills PTA, Mr. Roger Chavanne, spoke of plans currently being carried out to lay a firm foundation for future committee work in the PTA. He also recounted the present work being done in the community by the various committees.

The ineptitude of the male in the kitchen was clearly displayed when it was time to serve the coffee from an automatic coffee maker. The coffee looked weak, so weak as to resemble plain tap water. Testing proved this to be, in fact, the case. Finally the coffee problem was solved, ham sandwiches were served, and the meeting ended amid a flurry of cigar smoke and informal conversation.

BAPTIST CHURCH
The Baptist church held its regular monthly business meeting at the church on Saturday, Nov. 14. It was voted to send monthly support to the AIR MAIL FROM GOD MISSIONS. There will be a special Thanksgiving day service at the Country Club Hills Baptist church at 8 a.m. Everyone is invited to attend. The Sandridge Methodist church of Dolton donated 17 church pews and 12 folding seats, to the Country Club Hills church. The Rev. C. W. Reaka, pastor announces that Sunday school classes for all ages is held each Sunday at 9:45 a.m., Sunday morning worship at 11, Sunday evening evangelistic service at 7 p.m., and Wednesday evening prayer and praise service at 7:30 p.m., with a separate prayer class for children.

The various departments of the church have been meeting to carry out their particular responsibilities for work to be done. The worship department met this last week with: Charles Van Horn, chairman, Mrs. Wanda Steury, Mrs. E. H. Sonne and Richard Armistead.

The finance and stewardship department met with: Robert Landeen chairman, John Cox, Henry Brown and William Marquardsen. In accordance with the action of the official board, the building fund will be continued until an intensive drive for pledges can be made in January. An officer of the national board of church extension will meet with the group in the near future to confer with the committee on their specific plans.

A pastor's class, which meets on Saturday mornings, has six young people enrolled to consider membership. Another such class will be formed within a few months before Easter.

The Rev. Wendell Pew, attended the monthly meeting of the executive council of the Chicago Disciples Union at which time it was announced that the executive secretary, Dr. J. J. Van Boskirk, has resigned, effective Feb. 1, to accept a similar position in the Washington D. C. area. The women in the adult choir are grateful to Mrs. William Lindecker and Mrs. Frank

ST. JOSEPH MISSION
Rapid strides are being made in the volunteer construction of the new Mission Church. Various committees have been formed to organize the volunteers. General chairman is Wm. Schomburg. Fifty five men conducted the fund-raising drive a week ago Sunday, under the direction of Al Lewandowski, fund chairman, to obtain funds for materials necessary to complete the building. A house to house canvass of 292 Catholic families was made, with at least 95 % participation. Each family was asked to contribute \$25 in five dollar amounts. Many families contributed the entire \$25 then and there. Cash collected during the two hour drive amounted to \$1,825.00. An additional \$4,950.00 was promised in the form of pledges and will be collected during the next few weeks.

Volunteer workmen are under the general supervision of Hank Becker, who is construction coordinator. In charge of electricity is Ton Kelly; heating, Lawrence Jensen; roofing, John Arvander, publicity, James Cronin; ushers, Jack Murray; purchasing agent, Jim O'Connell, and in charge of procuring materials is Don Merriam. Local merchants have contributed food for the lunches of the volunteer workmen. The women are taking turns preparing the food under the direction of Mrs. Wm. Schomburg. Coffee and rolls are being served intermittently by women under the supervision of Mrs. John Thomas.

The Mission choir met for the third time in the home of Mrs. Wm. Coughlin, 4450 W. 182nd pl. on Thursday, Nov. 19. The choir is made up of men and women of various ages. The choir is under the direction of Mrs. Wm. Coughlin. The choir is made up of men and women of various ages. The choir is under the direction of Mrs. Wm. Coughlin.

On Thursday, Nov. 19. Thomas Quigley, director, was out of town at the time of the meeting, so Mrs. Lee Merriam substituted. Enthusiasm is running very high and those interested in joining are urged to contact Mr. Quigley at SY 9-5866.

A Silver Tea is being held for the Sisters of St. Joseph's School in Homewood on Sunday, Dec. 6 from 2 to 4 p.m. in St. Joseph's auditorium. This occasion shall provide mothers of school children with a good opportunity to become better acquainted with the Sisters who teach their children. For further information, one may call Mrs. Keith H. Francis, SY 8-5451.

WOMEN'S CLUB
Forty women attended the Newcomers' Tea in Willowview school on Nov. 18. Tables were beautifully decorated in pink (the official color of the Women's Club) and arranged in horseshoe fashion. Even the cream cheese in the finger tip sandwiches was pink, and cakes and pies of all varieties enhanced the tables. Several games were played to promote mixing and there was ample opportunity for old and new members to become better acquainted. The Club Scrap Book was passed around. Entertainment was provided by Marvin Kohlman with his accordion. Every one is reminded to set aside Feb. 20th to attend the "Cupid's Ball" to be held at Sanger Hall in Tinley Park.

FIRE DEPARTMENT AUXILIARY
At the meeting of the Women's Auxiliary on Nov. 18 in the Firehouse, it was decided to hold future meetings in the homes of the auxiliary. The dues were voted to be changed from 50¢ to 25¢ per month. Mrs. Jerry Bette, president, appointed chairmen of the following committees: Funeral fund, Mrs. Robert Fitzpatrick, disaster, Mrs. Frank Ryan, purchasing, Mrs. Frank Daniels, ways and means, Charlotte Carroll, vice president, and Mrs. Robert Fitzpatrick. ADAMS GREETES FOUR LETTERMEN

Veterans Should Help Eagles Reach Higher Perch In 1959-60 Cage Race

Bill Adams, Carl Sandburg coach, greeted four of last year's five starting basketball players in early drills. Don Arnold, Dick Barry, Duane Erickson, and Gerry McBride return and should help the Eagle to a higher perch in the SW Suburban standings.

"We will have a great deal more depth for the coming season," Adams reported.

Where will your boys finish? Typical question.

The Oklahoman, Adams, sat back in his chair and grinned. He grinned a little more, but did not say a word. He started a chuckling, "Well . . ." He did not go any deeper than that. In fact, he just didn't comment.

Finally, Adams began to speak, "We will shoot much better than we did last year, but our defense will not be good enough." We asked, "Will your defense be weaker than last year?" "We hope not . . . no I don't think that it will be weaker than last year, but it will not be strong enough." "Where will you finish?" Adams grinned and tilted his chair back against the wall.

His defense will not be good enough, but it will not be worse than last year. I guess this man is

hoping for some wins. But he still just grinned.

It was a rather different Adams than the Adams of one year ago who faced a season without a regular back.

Arnold and McBride the basket scoring twins of Carl Sandburg have appeared to be sharper in shooting accuracy in the early practices. Both proved themselves good players in the SWS last season when the Eagles surprised many people by finishing out of the basement. These men were the reason for that.

Currently, Arnold has been moved from the pivot post to a forward position. Adams is hoping to get some good play from sophomore, Lance Roberts 6'5". Roberts have been working out with the varsity at the center position.

Lance has not seen any varsity action and remains a gigantic question mark in the Eagles nest. If Roberts comes through . . . Whew . . . Wow. Many are hoping Roberts would satisfy the Sandburg need for more height. Last year the lack of rebounding cost the Eagles more than one basketball game.

McBride and Barry are teaming at the guards as they did last

year. They are getting some stiff competition from a couple of fellows named Lavine. Both Tony and Ted have shown a great deal more ability to hit ye 'ole basket. They will definitely see some action this year.

Lin Conrady and Don Overhue are two more reserve guards that cannot be ignored, either.

"It's not a bad position to be in . . . this having to choose between numerous good guys," smiled the Eagle's coach.

Erickson and Arnold will find a couple good men doing battle for the forward spots. Duane played as a sophomore and has shown spirit, and ability in practice.

Certainly, Bill Gorney, Paul Busch, and Ron Lindgren, all over the 6' point, are going to be a strong second line of reserve for the Sandburg team in the coming season of 23 games.

Sandburg will play with Riverside-Brookfield on Saturday evening at Riverside-Brookfield in the season's opener.

"After this game, I'll be able to learn plenty," explained Adams. "Maybe I can make a prediction for us after the game. However, I'll have to stick with Bremen as the possible SWS champ."

ADAMS PLANS--to carry a dozen on the Sandburg varsity team. They are: (left to right) Ted Lavine, R. Lindgren, L. Roberts, D. Arnold, B. Gorney, P. Busch, G. McBride, D. Erickson, Tony Lavine, D. Barry and D. Overhue.

Plainfield Edges Knights In Opener, 58 To 57

Basket In Last Seconds Spells Disaster For L-W

History!

That is a word that Joe Kruzich would like to forget. Or, rather, it is a fact of history that he would like to forget: Plainfield 58; Lincoln-Way, 57.

The Lincoln-Way roundballers dropped the season's opener of last year by an almost identical score. However, it was a one-point loss.

Kruzich is hoping that the game on Friday was not the beginning of another similar season to last.

"Skip" Kruzich, Lincoln-Way junior guard, scored a total of 27 points in the contest. He was especially effective from the free throw line. He had 8 baskets and 11 charity tosses.

Bruce Gruben of Plainfield stole the ball in the waning seconds, with Lincoln-Way leading 57-56, and scored his second basket of the entire game--but it was the winner.

Highly regarded Dave Needham of Plainfield was held to two field

goals in the first half, but score more effectively in the second half. Lincoln-Way's problems came with the loss of numerous men via the personal foul route.

Duane Warning looked very good as he cleared the backboards from the taller Needham. But Duane's lack of game experience beat him. However, Warning should improve with each game and so will the Knights.

Al Waldvogel was a pleasant surprise for Kruzich, hitting effectively on a one-hand push shot from 25 feet. Al produced a little more than this quarter expected.

"Skip" Kruzich lived up to his early season press notice. Due to the new rule on driving shots, he fouled out, he probably would have hit the 30 mark. Kruzich made 8 of 12 shots. Fantastic . . . for the opener.

The opening quarter of the game was rather ragged as the teams tried to find themselves and get the new offenses oiled up. They got them oiled and hitting well in the second stanza. Both of them hit in mid season form with 20 points apiece. Lincoln-Way carried the half time lead of 28-25.

Mid-way in the third quarter the Knights had built up a lead of nine points, but this was not sufficient to ward off the Plainfield drives and the Knights were on the short end of the score by the close of the

third period. They were down by one point--the margin of the eventual Plainfield victory.

The L-W team met Peotone last evening. Then they lay off until the Conference opener with Carl Sandburg at Orland Park next Friday, Dec. 4.

Add Hercules Missile To Nike Base At Lemont

Brig. Gen. Frederick W. Ellery commanding general of the 45th Artillery Brigade (Air Defense), Arlington Heights, today announced that the Chicago-Gary area will have another Nike-Hercules guided missile battery defending it. Battery 'D', 2d Missile Battalion, 60th Art., at Lemont, adjacent to the Atomic Energy Commission's Argonne National Laboratory, will be converted from Nike-Ajax to Nike-Hercules as of Nov. 20 1959.

Lt. Clarence D. Sapp commands the battery. Maj. Frank O. Anderson commands the 2d Missile Bn. 60th Art., and Col. A.W. Masters commands the 22d Artillery Group (Air Defense).

The Lemont site is the third operational Hercules battery in the Chicago-Gary air defense complex. The official conversion of the first such unit, Battery 'A', 2d Missile Battalion, 57th Art., at Montrose Avenue and Lake Shore Drive, occurred Aug. 20, 1958. In April of this year the second site was converted, Battery 'B', 1st Missile Battalion, 60th Art., at Porter, Ind.

Hercules is described as a major step forward in air defense. The Hercules has a speed of more than twice that of Ajax. Its range is in excess of 75 miles and its altitude capabilities extend from less than a thousand feet to more than 28 miles high. In addition, Hercules can carry either a conventional warhead or an atomic one.

The atomic capability allows Hercules to destroy whole formations of hostile aircraft.

Hercules is about 40 feet long, 32 inches in diameter and weighs about five tons.

The Hercules launching and guidance equipment is also capable of firing Ajax rounds.

Due to the vast importance of incorporating Hercules into the Chicago-Gary defense, elaborate safety and security measures will be employed to safeguard the weapon and its associated equipment. Extra man-proof fences, flood lights, sentry dogs and specially trained guards are but a few of the precautions taken to insure the security of the Nike-Hercules system at the Lemont site.

Former Marley Man Killed In Auto Crash

Ray Bell, 27, formerly of Marley, was instantly killed in an auto accident on Nov. 18 at Sherman, Tex. When his car hit the railing on a railroad overpass, he was thrown out the window, landing on the railroad tracks some 12 feet below. There was no witness to the accident. His body was found shortly afterwards by railroad workers.

He moved with his family to Sherman two and one half years ago where he was employed by a loan company. He was the son of the late Frank Bell.

Dedicate 3 State Vehicle Licensing, Testing Stations

(CNS)--The state's three "superstations" in outlying sections of Chicago for vehicle licensing and testing was dedicated Nov. 10. The stations will serve all of Cook county.

The principal ceremonies will be held at 10 a.m. at the motor vehicle facility located at 5301 Lexington ave. Secretary of State Charles F. Carpenter and many guests, including Governor Stratton, Mayor Daley, County Board President Ryan, and other state and local officials participated.

The other newly constructed motor vehicle registration and driver license testing stations are at Elston and Latrobe on the northwest side and at South Park and 100th street on the south side.

The three stations were constructed at a cost of \$2,061,039. The contracts were awarded in September, 1958. Money for the projects was appropriated by the 1957 legislature.

New drivers seeking motor vehicle and driver licenses will apply at these stations where off-the-street road tests will be given. Street driving conditions are set up on the testing grounds.

"The testing areas are scientifically designed to give a thorough and accurate test of an individual's ability to operate a motor vehicle," Carpenter has said.

Offstreet testing, he added, will eliminate dangers present when persons, under examination tension, take the wheel in the midst of city street traffic for their first test.

The testing areas may also be used as practice grounds for high school students taking driver training courses, Carpenter said. Vision tests and written portion of the driver license examination will be conducted in the station's administration building. Each site also has off-street parking facilities.

pleted the outfits. They carried yellow Fuji chrysanthemums.

Honor Frankfort Couple On Golden Wedding Anniversary

Mr. and Mrs. George Hasenjaeger, Center rd., Frankfort, celebrated their golden wedding anniversary Sunday afternoon and evening Nov. 15 with an open house in the Frankfort Methodist church.

During the afternoon approximately 500 friends and relatives extended their congratulations to the honored couple and registered in the guest book presided over by their niece, Mrs. Walter Pigush. Mrs. Hasenjaeger wore a wine colored silk dress and a corsage of yellow roses. Her husband was wearing a brown suit and had a yellow rose boutonniere. Arranged behind the couple, who were seated in leather chairs, was six floral bouquets from friends.

Refreshments were served from a table covered with white net over yellow cloth dotted with gold colored bows arranged around a large number "50". A beautiful 4-tier wedding cake adorned the table and on each side was a floral piece made of yellow roses each centered with a gold candle. Six nieces of the couple served the cake, cookies, mints, nuts, coffee and punch. The gift table was decorated identical to the serving table and was laden with many lovely gifts which were opened and displayed by two nieces. A gold wicket basket held many cards and gifts of money.

The couple's wedding picture together with a German Bible which they received 50 years ago from her parents, and a derby hat which the groom wore on his wedding day and which he wore to church on his anniversary, were displayed on an antique table which had belonged to his parents.

A dinner was served in the evening by the ladies of the church to about 180 relatives and friends. The honored couple's table was centered with yellow roses arranged in a crystal bowl and on each side were crystal candelabra holding gold candles. The other tables had yellow roses in bud vases, surrounded by gold leaves.

After the dinner a program was presented with Mrs. Edwin Dralle as toast mistress. Wedding Of Tinley Park Couple Soleminized At Trinity Lutheran

The recent wedding of a Tinley Park couple was solemnized in the Trinity Evangelical Lutheran church, 159th and Oak Park Ave., Tinley Park, with the pastor, Rev. Carl Hoeh, officiating.

The bride, Patricia Moran, is the daughter of Mr. and Mrs. Robert Moran of New England ave. The groom, Edward Siemsen, is the son of Mr. and Mrs. Hilbert Siemsen.

Palms and bouquets adorned the altar for the double ring candlelight ceremony. The organist, O. W. Winterstein, accompanied Marjorie Kimmel and Diana Bochmann as they sang "The Lord's Prayer."

The bride, escorted to the altar by her father, was radiant in a white Chantilly lace gown with chapel train. Irrescent pearls and sequins accented the skirt and bodice. The fingertip veil was held by a tiny tiara. She carried a white and yellow rose cascade bouquet.

The maid of honor, Miss Gloria Bettenhausen, wore a full length blue chiffon gown accented with tiny bows, with hat to match. The bridesmaids, Miss Bonnie Brauer, Miss Judy Gray, and Mrs. Sharon Reimer wore identical gowns. Their flowers were yellow plumarias. The junior bridesmaid was Daryl Moran, who wore a miniature version of the attendants' gowns.

The groom's attendants were Theodore Siemsen, Robert Moran Jr., Donald Coyner and Hilbert Siemsen. Junior usher was Robert Lau.

Mrs. Lynn Kohlhausen of the Frankfort Woman's club was chairman of the Community Chest drive for the area with Mrs. Ray Putnam assisting.

Plans have been made to send candy to the men in the community who are in the service, at the meeting Nov. 19.

Mrs. Ray Putnam presided. The next meeting will be the club's annual Christmas party with a gift exchange, to be held at 7:45 p.m. in the Frankfort village hall on Dec. 17.

Guests at the meeting were Mesdames Robert Dean, Elmer Grendheim, James Kelly and Herman Boettcher of Chicago.

Mrs. Jack Ewing introduced a speaker from Plainfield who represented the League of Women Voters and spoke on the United Nations, followed by a film.

Hostesses for the evening, were Mesdames Scherril Rahm, chairman, Don Carroll, Conrad Oetter, Lee Robinson, Joseph Scott, Erich Bizer and James Walker.

Candy pink and white, chosen colors of the bride were carried out in the shower theme which centered around a large heart-shaped arch, where the guest of honor was seated to open the many gifts.

A mock wedding provided such merriment for the 25 guests as well as interesting games played.

The guests had embroidered their names on a luncheon cloth which was presented to the bride-to-be.

Miss Bettenhausen and Donald Coyner of Oak Forest were wed in the Tinley Park Methodist church Nov. 21.

STUDENT COUNCIL
The Student Council of Lincoln-Way has recently started a program to honor students excelling in citizenship and unselfish devotion to their school. Nominations come from the teachers and the student body. The nominations are screened by a committee composed of Pat Loucks, Jr., Judy Baily, Soph., Bob Breidert, Jr., and Jim McGuire, S. r. After the committee has screened the nominations, they send two nominations for each class to the student council where they are voted on.

Every two weeks a citizen of the week is announced for each class. The students selected for Nov. 2 thru 17th are: Sophomore, Ron Yunker; Junior, Bob Lichtenwalter; senior, Margie Ardaugh.

For Nov. 17 thru Dec. 2: Freshmen, Janet Summers; Sophomore, Tom Suchoski; Junior, Helen Graham; Senior, Bob Munch.

All of these students are very active in all school activities. Each one of them does what he is expected to do plus a lot more.

ASSEMBLY
On Nov. 18, the basketball team put on an assembly showing some of the plays and introducing the players. Coach Joe Kruzich, explained some of the rules.

CHEERLEADING
Nov. 18, was the day chosen for

cheerleaders to try out. Three girls were chosen out of many who tried out. The three girls are Gayle Harling, Helen Graham, and Joyce Fonte. The three are all juniors.

1-W DEBATE
The Lincoln-Way high school debate team made its second appearance last Saturday, Nov. 14, at the annual Lyons Invitational Tournament at Lyons Township High school in LaGrange. The debates were conducted in three divisions: Varsity, sub-varsity and novice.

The teams did fairly well, considering this was only their second time debating this season. The novice affirmative team, Mike Tate and Dianne Lang, beat out Aurora East and Lyons Township but lost to Bremen. The novice negative team, Rich Osmus and Doran Engstrom, had no victories, losing to Winnetka, Elgin and Proviso West.

Debating varsity for the affirmative were Kay Van Rheaden and Betty Lehmann, who won over Prospect Heights and York, but lost to Elgin. The negative team, Dennis Porick and Jim Lakin, debating Varsity negative, beat Evanston, but lost to New Trier and Proviso West. All the teams had to compete in 4 rounds but only were judged on 3.

Their third debate will be Saturday, November 21, at Evanston all day. They hope to bring honor to the Knights by doing as well as last week.

MU THETA
Last Thursday the Mu Alpha Theta and the Math club under the guidance of Mrs. Della Hussey took a field trip to the IBM Data Processing center in Chicago.

At this processing center the students were acquainted with the larger IBM computers and the principles on which they operate. A movie was also shown in which the production of these astounding computers was illustrated.

After the visit to the data processing plant the students stopped off at the Museum of Science and Industry where they examined the different displays concerning science.

Members of the Frosh-Soph Drama Group began rehearsals for a one-act comedy called Murder Is Fun, which is to be presented at the Lincoln-Way auditorium on Dec. 5. The play gives a satirical treatment to a murder mystery. The murder is re-enacted on stage with Captain Brown, one of the characters, asking members of the audience to help him solve the mystery. He presents six suspects, to the audience, but the ending is a surprise.

The Thespian troupe 1920 of Lincoln-Way also will present a one act play on Dec. 5. The play is entitled "The Old Lady Shows Her Medals", by J. M. Barrie. Setting for the play is London in World War 1.

Editorials**Thanksgiving**

Another Thanksgiving is upon us and we can be truly grateful that we are still at peace and that most people have enough to eat and shelter from the elements.

We should be thankful too for the progress medical science has been making to curb disease and promote health. Those in good health should be most thankful. Position, possessions and prospects are nothing without health.

We should be thankful that we are still a free people and bend all our efforts to preserve that freedom and guard against foes of liberty—at home

or abroad.

Thanksgiving day began as a community day but has become quite an institution as a family day, when widely scattered members are drawn together again.

Churches in the area, together with those throughout the nation, will be holding special services at which individuals may return thanks for their blessings during the year. It is also good to remember that regardless of what troubles you may have experienced there are others who have had worse.

On Second Thot

GLENN F. LOGAN

This is the time of year when many appeals are being made to the public for contributions to many worthy causes.

The current appeal is for funds to aid in fighting tuberculosis. Great strides have been made in controlling this disease but there is still a long battle ahead.

Funds for the fight are collected on local levels and a portion of the amount collected is retained in the areas to take care of cases there.

A large portion of the money, of course, is spent on research. Eventually it is expected that medical science will come up with the answers that will eventually conquer the disease.

This is one campaign that is without pressure. The money is raised thru the sale of Christmas Seals that are mailed out to the people of the area.

Those in charge know that some of the people will not be reached directly. Their names are not in the telephone books or village or city directories but anyone who does not receive the Seals thru the mail need not let that stop them.

A check put in the mail and addressed to the Tuberculosis Association in either Joliet or Chicago will find its way to the proper spot.

A great deal of the money collected is spent on preventive health education programs, case finding activities and the rehabilitation of those in which the disease has been arrested.

Mobile x-ray units which provide free examination to the public have been financed thru Seal sales.

Statistics show there are 150,000 American people today who know they have TB while there is another 100,000 who have the disease in its active, infectious form but who may not know they are sick. There are another 550,000 persons in whom the disease is presently inactive but it could flare up and make invalids of them again.

One can see from this that TB is still a major problem and aid to combat it is vital.

So when you get your letter from the Tuberculosis Association containing the sheet of sheets of seals sit down and make out your check immediately before you forget it. The holiday season is practically upon us and with all the activities that term covers it is easy to overlook things.

And the annual Christmas Seal sale is too important to overlook.

WILLIAM F. WHITESIDE
Cook County Assoc. Farm Adviser

The 4-H achievement program
held recently was designed to rec-
ognize the work done by 4-H mem-
bers and leaders. Twenty leaders
thruout the county were cited for
their service to young people, by
being named to receive the Clover
Award. These twenty represent-
ed 150 years of 4-H club leadership.
Two of the leaders, Mrs. Erwin Ho-
ger, Tinley Park, and Mrs. E. L.
Cheate, Chicago, have devoted 15
years each to guiding the develop-
ment of boys and girls in their com-
munity. Mrs. Katherine Ihlenfeld
of Tinley Park was honored two
years ago for 20 years of 4-H Club
leadership. These people certainly
deserve special recognition for the
generous donation of time in the
interest of making better citi-
zens out of the boys and girls who
have been members of their 4-H
Clubs.

James Bussema and Larry
Heusmann of Chicago Heights, re-
ceived the 4-H Key Award. Approx-
imately 250 of the 71,000 Illinois
4-H members received this award
in 1959. The award is based on a
achievement in 4-H Club work, lead-
ership, and service to the commu-
nity in which the member lives. The
Key Award is a very significant
honor and we of the Extension staff
are proud that the hard work done
by Jim and Larry had qualified them
for this award.

Three 4-H Club members, Dar-
rell Erickson, Mokena, Gretchen
Mueller, Midlothian and Agnes En-
zweiler, Steger, were recognized
for ten and eleven years of contin-
uous membership in 4-H Club work.
This means they joined as soon as
they were old enough and stayed un-
til they reached the maximum age
for membership in 4-H Club work.
This is quite a record. I hope that
more and more of the present day
4-H Club membership would try to

match the records of these three 4-
H'ers.

The farmer's share of the con-
sumer's food dollar was 38 cents
in the July-September period, 1
cent below the preceding three
months and 2 cents below the year
earlier share. This was the lowest
quarterly average farmer's share
since before World War II.

Farmers' prices were 7 per cent
below last year in the third quar-
ter due largely to lower farm prices
for hogs, eggs and chickens. Retail
prices of farm food products, how-
ever, were down only 2 per cent
from last year.

In looking ahead for next year,
the U. S. Department of Agricul-
ture predicts a possible further de-
cline in the farmer's share of the
consumer's retail food dollar, tho
the decline is likely to be less than
1 per cent. Lower farm prices are
anticipated for farm food products
While retail prices on farm food
products may average somewhat
below 1959, an anticipated small
increase in marketing charges may
keep the retail price decline small-
er than the decline in farm prices.

New Program For Seniors

A new University of Illinois pro-
gram under which talented high
school seniors can take univer-
sity work to broaden and enrich
their high school programs has
been announced by C. W. Sanford,
dean of admissions at Illinois.

Admissions on recommendation
of school administrators will be
based on ability, grades, tests, and
time available. Work will be

above regular high school curri-
culum and carry regular university
credit.

As the high school seniors will
be taking most of their work in
secondary schools, it is expected
most will be from the Urbana-
Champaign area or in the Chicago
area within commuting distance of
the university's Chicago Under-
graduate Division on Navy Pier.

JUMP TO

4%

at **HARVEY FEDERAL**
SAVINGS

Starting January 1, 1960

Just think how fast your savings account will grow—
when Harvey Federal Savings adds the new anticipated 4%
annual dividend rate. If you put in \$1,000 and didn't add
another penny you would have \$1,480.20 in ten years!

Top earnings? Always. But there's another reason why
more people save at HFS than at any other savings institution
in the South Suburban area. And that reason is *safety*. In our
49 years, no saver has ever lost a single penny. And during
all the ups and downs of that half century, HFS has never
missed an annual dividend.

So, where you save does make a difference. Why not join
the "jump" to Harvey Federal Savings now? You may save by
mail, use convenient public transportation, park in our free
parking lot, or stay right in your car and use our new Drive-Up
Window. It's quick-as-a-bunny!

IN MEMORIAM
GRAY, WALTER: In loving memory of Walter Gray who passed away Nov. 23, 1958. I cannot say, and I will not say That he is dead — he is just away!

With a cheery smile, and a wave of the hand, He has wandered into an unknown land, And left us dreaming how very fair

It needs must be, since he lingers there, And you, O you, who the wildest yearn For the old-time step and the glad return —

Think of him faring on, as dear In the love of there as the love of here;

Think of him still as the same, I say: He is not dead — he is just away!

Business & Finance

By Maurice P. Angland
A few days ago the business outlook conference of the Chamber of Commerce of the United States, was held in Chicago.

Two of the leading speakers at this conference, Emerson P. Schmidt, economic research director for the organization and William F. Butler, vice president for economic research of the Chase Manhattan Bank of New York, expressed similar views on business activity for 1960. Both pressed the belief that business in 1960 will be good.

Arthur Rosenbaum, manager of economic research for Sears Roebuck & Co. predicted higher average employment and higher average earnings, will increase consumer income, from 5 to 6 per cent in 1960. More money will mean more spending with further growth in installment and mortgage debt.

Speakers expressed opinion that activity at the beginning of 1960 will be high as manufacturers seek to offset inventory depletion during steel strike.

The only cloud expected in residential building which is expected to be off about 5 per cent due to tighter mortgage money. However, commercial and industrial expansion is expected to be substantial. Municipal, hospital, and church building plans, should make total construction in 1960 the second best in history.

Speakers at the conference did not expect any economic downturn prior to 1961.

It is expected the new construction will reach a record high of \$56 billion with commercial construction showing greatest increase. Heavy machinery for expanded industrial capacity, will benefit greatly. The large research expenditures have made much of manufacturing equipment obsolete. Laboratory developments in new products and improvements on the old, have created conditions which force industrial firms to meet the new techniques in order to stay competitive in their industry. Those firms which do not stay abreast of developments, are likely to fall by the wayside.

An interesting point of analysis between firms in the same industry, is comparative "use of plant". This ratio is secured by calculating the percentage of sales to the depreciated plant account as stated on the company's own statement.

This figure will usually reveal which firms within an industry, are aggressively following the new developments and accepting the fact that other equipment has become obsolete. This is sometimes a hard decision, but necessary in this period of scientific revolution in industry. It is not pleasant to be forced to accept fact that machinery and equipment should be charged off before its mathematical life is complete.

As to autos, a good year is anticipated for 1960. Record production second only to 1955 is expected with American production about 6.2 million and imports about 500,000 cars.

Common stocks have become progressively more desirable to investors. Close analysis reveals that as to industrial firms, the holder of bonds or preferred stocks, is relatively taking as great a risk in the success of the venture as is the common stock holder.

However, the bond holder is in a fixed dollar position where he will receive only the dollar amount of principal and interest due him. He is not compensated for any change in purchasing power of the dollar.

Common stock controls the firm and elects its officers and will reflect changes in purchasing power of the dollar. Officers of a firm seldom liquidate a firm which is not profitable as they then put themselves out of employment.

Recent surveys of large educational endowment funds show as of Aug. 31, 1959, they had 57 per cent in common stock, 30.5 per cent in bonds and cash, 3.5 per cent in preferred stock, and 8 per cent in real estate mortgages, etc.

Expert Gives Pointers On Flower Care

By: JAMES FIZZELL
Assistant Cook Co. Farm Adviser

With the coming of the holiday seasons, many households will be receiving cut flowers either as gifts, or for everyday use as decorations. There are few things which will brighten up a room or lend a friendly atmosphere as well as fresh flowers.

Every florist uses all means available to him to get your flowers to you in the best possible condition, but it is up to you the recipient, to take proper measures to insure maximum life of the flowers.

When the flowers are received, about 1/2 to 1 inch of the bottom of the stem should be cut off, and the stems immediately immersed in warm water. If possible the flowers should be placed in a cool place for a couple of hours until they pick up water.

An important factor in keeping flowers fresh is the acidity or pH of the water in which they are placed. Research has shown that flowers definitely keep better if the water is on the acid side. Most water supplies in our area are on the alkaline side, and addition of an acid such as citric acid to the water will usually be of considerable help in the keeping of cut flowers. Citric acid is available in most drug stores. Aspirin is sometimes used for this purpose.

Different types of flowers vary in the length of time they will stay fresh after they are cut. Some, such as carnations and chrysanthemums will keep from two to three weeks if the stems are cut and the water changed every few days. More delicate flowers such as roses, snapdragons, and stocks are not as long lived even under the best conditions; however, proper care will help to make these flowers last the maximum time possible.

Spring bulbs will add a note of interest to the home within a few weeks if they are started now. Hyacinths, crocuses and daffodils are the best bulbs to force indoors. These bulbs contain tiny undeveloped plants which are ready to grow and flower as soon as they receive the proper light, moisture, and temperature.

The easiest method of forcing bulbs indoors is pebbles. Secure small clean pebbles about the size of a pea, and place them in attractive shallow bowl. Many garden or pet stores carry white and colored pebbles which will work very well. Press the bulbs firmly into the pebbles being careful not to injure the bulbs, and add enough water to bring the level just below the base of the bulb. The roots will grow and reach the water with in a short time, and the will soon spread through the pebbles to support the bulb.

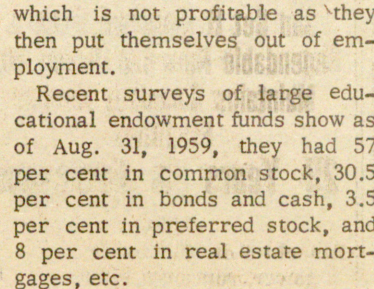

It is most important to promote substantial root development before the top growth begins. This is done by placing the planted bulbs in a cool, dark place for ten days to two weeks before forcing. When the roots are two inches long put the bulbs in a warm room near a north or east window. After the tops turn completely green, move the bulbs to a south window to complete their growth. Replace water in the container as it is lost by evaporation or picked up by the plant.

The bulbs will bloom after about five weeks from planting. A succession of bloom can be had thru April by planting bulbs 10 days apart over a period of months. Use the plants to decorate the dining room, table, the living room or use them as attractive gifts.

Odds and Ends
One half of knowing what you want is knowing what you must give up before you get it.

Museum To Open 18th Annual Festival Dramatizing Worlds Christmas Customs

Beginning Saturday, Nov. 28, and continuing thru Sunday, Dec. 13, the eighteenth annual festival dramatizing customs of "Christmas Around The World", will be featured at the Museum of Science and Industry, 57th Street and the lakefront.

Expected to continue its history of constantly new record-breaking crowds of spectators, the project, which has attained national recognition as one of the most picturesque Christmas season programs staged anywhere in the country, will this year highlight the Yuletide traditions of 21 different countries.

Programs will be held daily at 2:00, 7:00 and 8:30 p.m., with two extra afternoon programs on Saturdays and Sundays at 3:30 and 5:00 p.m.

The afternoon programs will be largely musical in nature. The evening programs will tell by means of pageantry, liturgical music, folk-songs and dancing, the story of the wealth of Christmas lore to which the United States has fallen heir. Presented by scores of educational, religious, civic and fraternal organizations, from all over the Chicago area, the Festival portrays the background of national heritages brought to the United States by emigrants from other countries, and emphasizing how the various old-world cultures have been blended into our American customs.

Between the Museum's regular closing hour and the evening program hour, portions of the exhibit floors will remain open to visitors. In the dining rooms, between 5:30 and 8:30 p.m., Christmas dinners featuring the national dishes of the groups represented by the day's programs, will be served.

The Museum's central court will be girdled by festive Christmas trees, each trimmed according to the traditions of the peoples they represent. Between them may be seen the manger scenes as one would find them in the lands whose traditions hold no trees as part of

the Yuletide pageant. The glittering Norwegian stars, the mouth-watering French bon-bons, the Polish egg-shell figures, the Lithuanian bird cages of straw, the Dutch shoes filled with carrots and apples waiting for good St. Nicholas, the angels of many nationalities, will lend a quaint and happy charm to remind visitors that all those lands have contributed their cultural treasures to build a land consecrated to the ways of peace and good will.

The dates on which the Christmas customs of various countries will be individually featured follow: Nov. 28 Irish - Italian, Nov. 29 Polish, Nov. 30 Croatian, Dec. 1 Hungarian, Dec. 2 Lithuanian, Dec. 3 Slovenian - Japanese, Dec. 4 Dutch, Dec. 5 Swedish, Dec. 6 Norwegian - Latvian - Ukrainian, Dec. 7 British, Dec. 8 Chinese - Danish, Dec. 9 Mexican, Dec. 10 German, Dec. 11 Czechoslovakian, Dec. 12 French, Dec. 13 American.
